- Supabase
- Node.js
- REST APIs
- JavaScript
- TypeScript
- Tailwind CSS
- GitHub
- Postman
- Cloud Architecture & SaaS solutions
- Azure Portal
- MySQL
- Docker
- Azure Blob Storage
- Azure DevOps

👤 About me

Front-end / Full-Stack Developer with experience building modern web applications using Vue.js, Nuxt.js, React, Next.js and TypeScript, alongside Node.js and cloud technologies.

🏢 Work experience

Full-Stack Developer

01/07/2025 – Current

Independent Projects | Netherlands

- Build real-world web and mobile applications using Vue.js, Nuxt.js, React, Next.js, React Native, Node.js, TypeScript and Supabase.
- Develop production-ready frontend, backend, API and database solutions for independent and real-world business projects.

Cloud Engineer Intern

01/01/2025 – 01/07/2025

ABN AMRO Bank | Amsterdam, Netherlands

- Developed and optimized cloud-based solutions within ABN AMRO's infrastructure.
- Designed and implemented a centralized JavaScript library for Planon SaaS, improving maintainability and eliminating duplicated embedded scripts.
- Integrated **Azure Blob Storage** for centralized hosting, retrieval and versioning of JavaScript assets.
- Built an automated deployment pipeline with Azure DevOps, enabling reliable and streamlined releases of the JavaScript library.
- Implemented end-to-end test automation with **Playwright** for Mendix-based workflows, improving testing efficiency and reliability.

Full-stack Developer — ICT Skill Path

01/01/2024 – 01/01/2025

Share Network | Amsterdam, Netherlands

- Developed responsive web applications using Nuxt.js and Vue.js.
- Built backend services with Node.js and Supabase, including real-time data functionality.
- Built reusable UI components with PrimeVue, improving consistency and development speed.

Website: <https://share-network.org/>

Front-end Developer – Remote

09/05/2018 – 02/08/2021

Compro Solution (Remote) | Dubai, United Arab Emirates

- Developed responsive React applications using JavaScript, TypeScript, Bootstrap and Tailwind.
- Integrated frontend applications with backend services and collaborated with designers to deliver production-ready interfaces.

Education & Training

Bachelor of Information Technology

01/01/2013 – 01/01/2017

Syrian Virtual University | Damascus, Syria

Evaluated by Nuffic as Dutch HBO bachelor level in Informatica. See link below:

Projects

The Jewellery Discounter

01/03/2026 – 01/06/2026

A complete Shopify storefront built for an established jewellery retailer, covering custom theme development, responsive commerce UX, product discovery and core store integrations.

<https://www.thejewellerydiscounter.com/>

Shopify Order Picking App

01/01/2026 – 01/03/2026

An embedded Shopify operations app that turns unfulfilled orders into a focused pick-and-pack workflow with live order data, item-level checking and fulfillment safeguards.

<https://georgealam.dev/work/shopify-embed-app/>

Switchii Dating platform

01/05/2025 – 01/02/2026

A cross-platform dating app for web and mobile, combining profile discovery, matching, messaging and real-time audio and video communication.

<https://georgealam.dev/work/switchii/>

Planon JS Platform

01/01/2025 – 01/07/2025

A centralized JavaScript platform for Planon forms at ABN AMRO, combining reusable frontend logic, Azure infrastructure and automated environment deployments.
